Rescoping of Field Sampling Plan for Pipelines in Operable Unit No. 9

Craig Cowdrey, Project Manager for OU 9

Environmental Restoration Project

EG&G Rocky Flats, Inc.

The Assistant Manager for Environmental Restoration is in the process of imminently issuing a stop work order for the Industrial Area (IA), pending a reconfiguration of the Operable Units (OUs) and a renegotiation of the workscope in the IA. This order would thus preclude all activities pertaining to Technical Memoranda development, including the proposal contained in your letter dated February 17, 1995 (Ref: 94-RF-01611), to rescope the field sampling plan for pipelines in OU 9. Similarly, activities pertaining to finalizing the Addendum to OU 9 Technical Memorandum No. 1 for outside tanks, are also no longer appropriate. Therefore, the Department of Energy does not concur with your recommendations at this time.

We do look forward to a comprehensive discussion of all issues pertaining to the IA OUs, along with your active participation. If you have any questions or comments, please call me at extension 9664.

Ravi Batra
Industrial Area Manager
Environmental Restoration
